Dr Luning Li

luning.li@glasgow.ac.uk

Work experience

2024-now	Research Associate in Urban Analytics
	Urban Big Data Centre (UBDC), **University of Glasgow, UK**
2023-2024	Research Associate of Quantitative Human Geography
	School of Geographical Sciences, **University of Bristol, UK**

Education

2019-2023	Ph.D. in Cartology and Geographical Information System (GIS)
	PhD thesis title: Identifying the characteristics of crowd activities and built environment attractiveness in urban open spaces based on Wi-Fi technology
	Beijing Normal University, China
2016-2019	MSc in Natural Resource
	Beijing Normal University, China
2012-2016	BSc in Geographic Information Sciences (GIS)
	BSc in Applied Psychology (Minor degree)
	East China Normal University, China

Grants

1. 2026. PI. “Using Mobile Phone Big Data to Support Evidence-Based Public Greenspace Management and Planning.” ESRC Impact Acceleration Account (IAA) User Engagement Fund, University of Glasgow, £4,200.
2. 2026. Co-lead. “Putting gambling harms in their place: A Rapid Evidence Review on gambling and its spatial footprint.” Rapid Evidence Reviews for the UKRI Research Programme on Gambling, funded through the Arts and Humanities Research Council (AHRC), £51,088.
3. 2025. PI. “Green Commutes: Understanding How Greenspaces Are Included in Active

Commuting Activities Using Mobile Phone Application Data." Division of Urban Studies and Social Policy, University of Glasgow (Research and Scholarship Funding), £1,918.

4. 2020. Student Co-I. "Spatiotemporal Diffusion Patterns and Influencing Factors of the COVID-19 Epidemic in China", Communist Party Committee of Beijing Normal University, China.

Teaching experience

1. Postgraduate Workshop Instructor

AGILE PhD School 2026, University of Glasgow, September 2026

Designed and delivered a 90-minute hands-on workshop, "Urban Mobility Insights from Mobile Phone Data," for an international cohort of 23 PhD researchers. Introduced the use of mobile phone data to understand human mobility through case studies on greenspace use, origin-destination flow, and cultural venue visitation.

2. MSc Dissertation Supervisor

URBAN5054P REPR CityPlan&REDevt Dissertation 2025/26 (on-going), University of Glasgow

Supervising dissertation of one MSc students on urban planning topics.

URBAN5080P Urban Transport Dissertation 2024/25, University of Glasgow

Supervised dissertations of two MSc students on urban transport topics.

3. Postgraduate Course Guest Lecture

URBAN5125 Big Data, AI & Urban Analytics, 2025 Fall, University of Glasgow

Delivered a guest lecture on "Urban mobility insights from mobile phone apps", introducing the use of mobile phone app data to analyse human mobility patterns and urban activity dynamics.

4. Postgraduate Group Project Advisor

Urban Analytics Group Project, 2024/25, University of Glasgow

Advised an Urban Analytics group project consisting of four MSc students providing throughout guidance on research design, data analysis, and presentation.

5. Postgraduate Teaching Assistant

URBAN5114 Principles & Applications of GIS, 2024 Fall, University of Glasgow

Assisted with labs, and student support for a postgraduate GIS module.

6. Undergraduate Teaching Assistant

Academic writing and presentation skills, 2018 Fall, Beijing Normal University

Delivered a guest lecture and supported undergraduate students in developing academic writing and oral presentation skills.

Academic and Professional Services

Scientific Committee Member:
Digital Footprint Conference 2027, University of Bristol.

Organising Committee Member:
AGILE PhD School 2026, University of Glasgow, September 2026
Contributed to the delivery of an international doctoral training programme on "*Urban Analytics*

in the AI Era: From Smart Data to Participatory Action."

Early-Career Panelist:
AGILE PhD School 2026, University of Glasgow, September 2026
Invited panelist for the early-career session, "*How to Navigate the Life of a PhD Student?*", sharing experiences and advice with an international cohort of 23 PhD researchers.

Leading Workshops Organizer:
2025. "Mobile Phone App Data for Public Good: Opportunities and Challenges", organized by Luning Li, Michael Sinclair, Rafa Verduzco Torres, Faraz Malik Awak, Varun Raturi, *Digital Footprints Conference 2025*, Leeds, UK

Reviewing for Peer-Reviewed Journals:
1. Current Issues in Tourism
2. Scientific Report
3. Ecosystem Services
4. Applied Geography
5. Humanities and Social Sciences Communications
6. Frontiers in Sustainable Food Systems
7. Travel Behaviour & Society
8. Social Network Analysis and Mining
9. Applied Spatial Analysis and Policy

Oral presentation:
1. 2026. "Building Scalable Nature-Use Indicators for Thriving Cities: Modelling demand for park quality using mobile phone app data", *The 34th Annual GIS Research UK Conference (GISRUK)*, The University of Birmingham, UK. 10.5281/zenodo.19387360
2. 2025. "Gambling: a story of remarkable stability in fast-changing high streets", *Spatial dimensions of gambling workshop*, Bristol, UK.
3. 2025. "Mobile Phone App Data for Understanding Urban Public Park Use: Opportunities and Challenges", *The 2025 International Symposium on Spatiotemporal Data Science*, organized by Hong Kong Polytechnic University (online).
4. 2025. "Mobile Phone App Data for Understanding Urban Public Park Use: Opportunities and Challenges", *The 33th Annual GIS Research UK Conference (GISRUK)*, The University of Bristol, UK. https://doi.org/10.5281/zenodo.15184231
5. 2024. "Understanding urban public park usage from mobile phone application data" (presented by co-author), *The 5th ESP Europe Conference,* Wageningen, The Netherlands.
6. 2024. "Identifying Tourism Attractiveness Based on Intra-Destination Tourist Behaviour: Evidence from Wi-Fi Data", *The 27th AGILE Conference on Geographic Information Science*, Glasgow, UK.
7. 2023. "Identifying Tourism Attractiveness Based on Intra-Destination Tourist Behaviour: Evidence from Wi-Fi Data", *2023 China Conference on Human Geography*, Lanzhou, China.
8. 2020. "Contextualizing human dynamics: Understanding the semantics of movement trajectories with Wi-Fi data" *The 16th Spatial Behavior and Planning Symposium of China*, Xiamen, China (online).

9. 2019. “A Spatiotemporal Approach for Population Segmentation in Open Public Places using Wi-Fi Probe Data”, *The 16th China Geographic Information Science Theory and Method Academic Conference*, Shanghai, China.
10. 2019. “A Spatial-temporal Analysis Approach of Population Segmentation using Wi-Fi Data”, *American Association of Geographers (AAG) Annual Meeting*, Washington, DC, USA.
11. 2018. “A Modified Inverse Distance Weighting Method for Interpolation in Open Public Places Based on Wi-Fi Probe Data”, *China Conference on Geography*, Xi’an, China.

Poster:

1. 2025. “Mobile Phone App Data for Understanding Urban Public Park Use: Opportunities and Challenges”. *Digital Footprints Conference 2025*, Leeds, UK.
2. 2024. “Gambling: a story of remarkable stability in fast-changing high streets”, *Bristol Hub for Gambling Harms Research Second International Interdisciplinary Colloquium*, Bristol, UK.

Awards

2022	Third Prize in "MAP Cup" Digital & Smart Agriculture Competition, organized by Syngenta Group China
2020	Outstanding Presentation Paper in Sub-forum, The 16th Spatial Behavior and Planning Symposium of China, Xiamen, China (online).
2019	First Prize in Graduate Student Paper Competition, The 16th China GIScience Theory and Method Academic Conference, Shanghai, China
2017 – 2022	First Prize in Outstanding Graduate Scholarship, Beijing Normal University
2016	Freshman Scholarship, Beijing Normal University (for recommended postgraduate)
